

Announcing a Partnership Between Columbia School and Libraries of Stevens County

We are excited to announce a partnership being formed between Columbia School and Libraries of Stevens County! This will open up a vast number of resources to students, staff, and families.

Best of all we are making it super easy to take advantage of this resource! If you do not currently hold a Stevens County library card you can go online to get a temporary card, or request a form from the school. Students need parental permission. Completed forms can be given to Mrs. Budweg in our school library and she will get them turned into Stevens County Library. Once a student has a library card, he/she can request books or any other materials in the Stevens County Library system, and the books will be dropped off at our school. When you are ready to return items there is a return box just outside the school's west entrance or you can drop them at any other drop box throughout the county! How easy is that?!

Please take advantage of this wonderful partnership! A **Big** thank you to Megan Bush who works at the library in our senior center for her willingness to drop off materials and help us gain access to our county library system. If you have questions please contact Megan Bush at megan@scrld.org or Mrs. Budweg at JBudweg@columbia206.com.
